About VistaGen

VistaGen (Nasdaq: VTGN) is a late clinical-stage biopharmaceutical company striving to transform the treatment landscape for individuals living with anxiety, depression, and other CNS disorders. The Company is advancing drug candidates with the potential to be faster-acting, and with fewer side effects and safety concerns, than those that are currently available. VistaGen's clinical-stage candidates are targeting multiple forms of anxiety and depression. PH94B and PH10 belong to a new class of drugs known as pherine nasal sprays, which are investigational neuroactive steroids designed with a novel rapid-onset mechanism of action that activates chemosensory neurons in the nasal passages and can impact the olfactory-amygdala neural circuits without systemic uptake or direct activity on CNS neurons in the brain. VistaGen is passionate about transforming mental health care and redefining what is possible in the treatment of anxiety and depression. Connect at www.VistaGen.com.
